

## Marshall Space Flight Center Exhibit Data Sheet

### Hubble Space Telescope

The 1:5 scale Hubble Space Telescope is an accurate representation of the great observatory which was launched April 25, 1990, by the Space Shuttle Discovery. Orbiting the Earth at an altitude of 370 miles, the HST is providing information to scientists on a daily basis, changing the way we view and understand the universe.

The 1:5 scale Hubble Space Telescope is suitable only for indoor display.

**Scale:** 1:5

**Dimensions:**

10' height x 9' width x 9' length

**Electrical Requirements:**

None

**Value for Insurance:**

\$22,000.00

**Crate Specifications:**

80" x 53" x 53" @565 lbs.

43" x 43" x 60" @300 lbs.

52" x 42" x 49" @300 lbs.

96" x 44" x 14" @300 lbs.

**Assembly Equipment Required:**

Forklift to move crates

Handtools

**Labor Required:**

Four people

**Assembly Time:**

Approximately two hours
